Filing notice of appeal

Four Issues, matters....

1. Federal Judge James D. Peterson, LIED. He said I had been arrested 17 times, I have never been arrested and that is way more than a harmless error in a case involving the Freedom of speech.
2. Federal Judge James D. Peterson through is own admission, and remarks in his dismissal had clearly not read a brief filed by me on July 15th 2016. According to his remarks this very important brief breaking down the 11th amendment Bar, the Rooker Fieldman doctrine bar, 9th and 10th amendments first amendment an incredibly detailed and important document missing from the record. **“He did not review it”** he did not list it off, as on record.
3. **Federal District courts have jurisdiction over Federal law, the United States constitution is Federal law. All judges of state courts are under Federal law.** They can't ignore the constitution something they took an oath to uphold. **“Explained in the Mysteriously missing brief.”**

4. When a state + consul, or + minister, or + ambassador are taken to court then the Federal Supreme Court has original jurisdiction. A Consul is not a judge, a Minister is not a judge, an ambassador is not a judge. The district court then has jurisdiction.

How can a judge or attorney who took an oath to uphold the United States constitution, be immune from suit, when they fail to uphold it.

The biggest issue, not one, of the defendants nor there attorney has denied they failed to uphold the constitution. NOT "ONE" OF THEM HAS DENIED THAT. **NOT ONE.** States claim (It is a crime "violation of law" to ask a girl out for a date.) Clearly that is a violation of the constitution. " I repeat the state,(is not) denying that"

I am Pro se. does that mean I don't get constitutional rights. That is a major problem in this country. It appears to me that Judge Peterson is prejudice, against Pro se litigants. He started out with the word "Pro se" in his dismissal. That is not right, fair or justice, to be prejudice against someone for being Pro se and denying them there constitutional rights because of it. Then turning a case of freedom of speech into me being falsely accused of being arrested 17 times. When I have never been arrested. That is not acceptable.

Judge Peterson still has time to review the matter. How ever there is a time limit on appeals and I must abide by them. This is my notice of appeal please send me the rules for Appellate procedure in the seventh circuit court of appeals.

Sincerely

Pat Schottler.
